W VA PUBLIC SERVICE  
COMMISSION  
SECRETARY'S OFFICE

**Case # 05-1740**

Dear Ms. Squire,

I would like to invite the Public Service Commission and its staff to come visit my farm in Pendleton County and take a look around.

The beauty and purity of our views, our setting, our country, are beyond price. Like a child's innocence, a young girl's modesty, a young man's dreams... once lost, these are gone forever.

And of course, there are those with small souls who claim that these priceless things are valueless: they must put monstrous wind turbines on the ridges, put the girl on the street, grind the young man down to satisfy their greed.

Any good man will make sacrifices for his children and the future.

No good man will stand still while his birthright is stolen.

It happens again and again. The same old story. Wasn't it great while we had it?

You folks at the PSC better come visit soon.

Sincerely,

*Charles E. Bates*
