This is in regard to case
#05-1740, Liberty Gap Wind Farm, LLC.

I own property in the proposed
area of Jack Mountain. Its most
cherished asset is its beauty
and quiet and I'm sure the
project will greatly devalue
my property.

Please develop an independent
survey, rather than relying on
Liberty Gap's double talk, so we
do not experience the same devaluing
as Tucker County. Considering such
a study would give TC a
useful set of standards to evaluate
applicant responses -

Thanks for your help -
